ns = not shown				G = Grade			

⚠ WARNING

Do not exceed GVWR or GAWR, including blade and ballast.

⚠ CAUTION

Use standard methods and practices when attaching snowplow and installing accessories, including proper personal protective safety equipment.

⚠ CAUTION

Read this document before installing the blade guide kit.

⚠ CAUTION

See your sales outlet/website for specific vehicle application recommendations before installation. The online selection system has specific vehicle and snowplow requirements.

INSTALLATION INSTRUCTIONS

1. Park the vehicle on a smooth, level, hard surface, such as concrete. Lower the blade to the ground, and turn the control OFF. Disconnect the snowplow from the vehicle, or turn the vehicle ignition to the "OFF" position and remove the key.
2. Secure the driver-side clamp to the outermost rib on the driver's side of the blade using two 5/16" x 1" cap screws and 5/16" locknuts. Tighten the fasteners to 18 ft-lb.
3. Remove the nut from the bottom of the blade guide. Insert the blade guide rod into the hole in the top of the clamp and secure with the blade guide nut.
4. Repeat Steps 2 and 3 for the passenger's side.
